Profile

I am a highly motivated and detail-oriented Cyber Security Engineer with a passion for delivering secure and reliable software solutions. I am near graduation with a degree in Computer Science and eager to launch my career in this dynamic and rapidly evolving field. I bring strong problem-solving and analytical skills honed through academic studies and personal projects. I am a fast learner and constantly stay current with industry advancements. I have excellent team collaboration and communication abilities, and a positive, solution-focused mindset. I am confident in my ability to make a significant impact to any organization in the field of Global Cyber Security Engineering.

Employment History

Air Force Soldier , 4th KEP Cypriot Army , Limassol

JULY 2019 – SEPTEMBER 2020

During my time in the Cypriot Army, I served as an Air Force Soldier, operating radars to monitor the airspace for potential threats. This role required me to possess strong attention to detail, quick reaction time, and excellent decision-making skills. I was responsible for ensuring the smooth and efficient operation of the radar equipment and recorded and communicated all readings accurately to relevant authorities. I also collaborated closely with other team members to maintain situational awareness and provide support as needed. This experience allowed me to develop technical skills and the ability to work effectively under pressure and as part of a team. I am proud to have served my country and believe that my military background has equipped me with valuable skills and qualities that will be beneficial in my future career.

Waiter, Malindi Beach Bar, Limassol

JUNE 2018 – SEPTEMBER 2018

As a waiter at a busy beach bar, I was responsible for providing excellent customer service to guests while taking and delivering orders accurately and efficiently. My job involved working in a fast-paced environment, handling multiple tasks at once, and providing a positive dining experience to guests. This experience taught me the importance of strong teamwork, excellent communication skills, and the ability to work well under pressure, all of which are qualities I can bring to any role.

Education

Computer Science, University of Sunderland, Sunderland

SEPTEMBER 2020 – MAY 2023
